ABOUT EVENTAGARDE

At EventaGarde, we believe events should be more than just well-organized occasions - they should create a feeling, tell a story and leave people with something to remember. We bring together creativity, attention to detail and real-world event experience to create events that are purposeful, engaging and memorable. From corporate events and conferences to exhibitions, celebrations, launches and bespoke experiences, we take care of the details from the first idea to the final moment, making sure every event feels unique to our client.

What sets us apart is the way we work. We listen, understand what our clients want to achieve, and then turn that vision into an experience that feels effortless for them and exciting for their guests. Whether it is a large-scale corporate event or a more intimate celebration, we approach every project with the same level of commitment, creativity and personal attention. For us, it is not simply about putting an event together - it is about creating an experience that people will talk about long after it is over.

**A PARTNER FROM THE FIRST IDEA TO
THE FINAL MOMENT.**

ONE PARTNER. ENDLESS OPPORTUNITIES.

1. CONFERENCES & SUMMITS

We manage conferences, forums, congresses and leadership summits from planning through delivery. Our team coordinates delegate journeys, registration, speakers, VIPs, staging, AV, content flow and technical production - creating a professional environment where the program, audience experience and operational detail work seamlessly together.

2. TRADE SHOWS & EXHIBITIONS

We create exhibition environments designed to support business, visibility and meaningful connections. From floor planning and exhibitor coordination to feature areas, registration, signage, branding and technical infrastructure, we manage the moving parts as one integrated delivery plan

3. CORPORATE EVENTS

From product launches and gala dinners to awards, employee events and leadership meetings, we build corporate experiences around the objective behind the event. Creative, production, hospitality and operations are coordinated through one team, so the experience feels consistent, polished and purposeful.

4. LIVE EVENTS & CONCERTS

We deliver concerts, festivals, entertainment programs and large-scale public events with the technical discipline live production demands. Staging, sound, lighting, LED, show production, backstage coordination and event operations are planned around the audience experience and the realities of show day.

5. WEDDINGS & CELEBRATIONS

We create luxury weddings, engagements, anniversaries and milestone celebrations that feel personal rather than packaged. Every element - concept, decor, florals, entertainment, lighting, dining and guest experience - is considered together, with discreet management from planning through the final celebration.

6. FASHION SHOWS & CULTURAL EVENTS

We produce fashion shows, designer showcases, cultural programs and artistic events where presentation and timing are everything. Runway and stage design, backstage movement, lighting, AV and show calling are coordinated to protect the creative vision while meeting professional production standards.

7. CREATIVE & EVENT DESIGN

Every strong event begins with a clear idea. We develop concepts, mood boards, spatial layouts, guest journeys, stage environments, decor, installations and visual experiences that connect the brief to the audience - always balancing creativity with budget, buildability and technical feasibility.

8. PRODUCTION, FABRICATION & INTERIOR FIT-OUT

We turn concepts into physical environments through bespoke fabrication, joinery, metalwork, decorative structures, branded spaces and interior fit-out. From technical drawings and material selection to fabrication, finishes and installation, we manage quality and execution through one coordinated production process.

9. EXHIBITION STAND BUILDING

We design and build bespoke exhibition stands, corporate pavilions and immersive brand environments that attract attention and support conversations. Our turnkey service covers 3D design, technical drawings, fabrication, graphics, lighting, AV integration, installation, on-site support and dismantling.

10. STAGE & SET CONSTRUCTION

We create stages and scenic environments for conferences, awards, entertainment and branded experiences. Every set is developed around sightlines, content, performers and technical requirements, combining structural planning, scenic fabrication, finishes and production integration.

11. AUDIO, SOUND & AV SOLUTIONS

We specify and deliver professional audio and AV systems around the venue, program and audience. Microphones, mixing, projection, presentation technology and technical control are supported by experienced operators, testing and rehearsals so the technology supports the event rather than distracting from it.

12. LED & VIDEO WALL SOLUTIONS

We deliver high-resolution LED walls, digital backdrops and large-format visual systems for events and exhibitions. Standard, curved, custom and immersive configurations are planned with content, viewing distance and venue conditions in mind, including installation, signal management, testing and operation.

13. LIGHTING SOLUTIONS

Lighting shapes how a space feels and where the audience looks. We design intelligent, architectural, stage, ambient and programmed lighting for corporate events, weddings, exhibitions, concerts and launches, creating atmosphere while supporting cameras, content, performers and the architecture.

14. LIVE STREAMING & HYBRID EVENTS

We connect audiences beyond the room through professional multi-camera streaming and hybrid production. Remote speakers, presentation feeds, live switching, recording, connectivity planning and technical rehearsals are coordinated with redundancy in mind for a dependable broadcast experience.

15. EVENT FURNITURE RENTALS

We provide premium lounge, dining, conference, hospitality and VIP furniture selected as part of the overall design. Collections are curated around the event aesthetic and spatial requirements, with delivery, positioning and collection coordinated with the wider production schedule

16. CUSTOMIZED FURNITURE SOLUTIONS

When the right piece does not exist, we create it. Bespoke seating, counters, tables, display units and branded furniture can be developed in custom dimensions, materials and finishes to fit the environment, brand identity and guest experience precisely.

17. TENT & TEMPORARY STRUCTURES

We create temporary event spaces for outdoor hospitality, exhibitions, festivals and celebrations without compromising on finish or functionality. Structures can be integrated with flooring, climate control, lighting, interiors and technical infrastructure, with planning around access, capacity and site conditions.

18. BRANDING & SIGNAGE

We make brand identity visible throughout the guest journey. Entrance features, directional signage, sponsor visibility, wayfinding, printed graphics, wall treatments and custom branded installations are developed as one visual system for a consistent experience from arrival to departure.

19. GIFTS & SOUVENIRS

We source and create corporate gifts, VIP gifting, event merchandise and customized souvenirs that feel considered rather than generic. Product selection, branding, packaging and presentation are aligned with the recipient, occasion and brand so the item becomes a meaningful extension of the experience

20. HOSTESS, STAFFING & GUEST SERVICES

Professional front-of-house teams shape the first and last impression of an event. We provide hostesses, registration teams, ushers, supervisors and guest-service personnel, supported by event-specific briefings covering the brand, program, VIP requirements and guest journey.

21. CATERING & HOSPITALITY SERVICES

We coordinate catering and hospitality for corporate events, gala dinners, weddings, VIP receptions and exhibitions. From plated dining and buffets to live stations and bespoke menus, we focus on presentation, dietary needs, service timing and guest flow so hospitality feels fully integrated into the event.

WHY EVENTAGARDE?

CREATIVE THINKING. COMMERCIAL UNDERSTANDING. DELIVERY DISCIPLINE.

EventaGarde brings strategy, creative, design, production, fabrication, technology, hospitality and on-ground delivery together through one coordinated team. That integration reduces gaps between suppliers, protects the creative vision and gives clients a clear point of responsibility throughout the project.

ONE INTEGRATED PARTNER

Strategy, creative, production, fabrication, technology, branding and hospitality coordinated through one team

BUILT AROUND YOUR BRIEF

Every solution starts with the objective, audience, environment and budget - not a predetermined package.

DETAIL WITHOUT LOSING THE BIG PICTURE

From a VIP arrival to a technical cue, every detail must serve the overall experience.

ACCOUNTABILITY FROM START TO FINISH

We take ownership of what we commit to and stay closely involved through execution and final handover.

ONE PARTNER.

EVERY DETAIL CONNECTED.

LET'S CREATE SOMETHING REMARKABLE.

Whether you are planning a major conference, government event, exhibition, corporate experience, luxury celebration or an entirely new concept, EventaGarde is ready to turn the brief into an experience people remember.

We work as an extension of your team - not simply another supplier.
